

TROPICAL SMOOTHIE – Hand & Body Rescue Crème

Size: 4 oz./120 ml **Skin Type:** All **Purpose:** To deeply hydrate, smooth & rejuvenate dry, stressed and/or aged skin

Say good-bye to dry, creped, chapped, weathered or otherwise stressed or aged skin!

Tropical Smoothie is an intoxicating fruit enzyme based hand and body crème that is so well endowed with deeply penetrating chiral treats that it "**melts into the skin like butter on warm toast!**"

Plus . . . We've created a chiroma-therapy ratio for **tropical smoothie** that is going to have you falling in love with the product all over again - each and every time you use it. *In fact . . .* **tropical smoothie** *smells so good;* you almost want to eat it!

Chock full of chirally advanced components, this will be the - "**hands down best**" and **most surprising** product of it's type that you have ever used!

Formula Highlights

- **Tropical Smoothie** is formulated with a totally unique fruit enzyme base which contains the chiral sugars **D-galactose, L-arabinose, D-xylose** and **L-fuctose**. These pectins have a molecular weight of 20,000 to 400,000 and in nature they act as the universal cement for plant cells. In our luxurious **tropical smoothie** they benefit the desmosomes that connect your epidermal cells!
- **L-alpha-lecithin**, which is a component of egg yolk, is the most nutrient rich and penetrating of all lecithins. It is naturally left-handed to address the chemistries of protein's individual amino acids, thereby keeping the skin's proteins properly folded and the protein fibers correctly coiled. Left-handed lecithin is anti-eczemic, anti-psoriasis, anti-seborrheic, anti-sclerodermic, AND . . . It is also a potent antioxidant synergist!
- **D-beta glucosamine** supplies nitrogen to the skin's network of signaling molecules so that there will be accurate communication between cells. This keeps the epidermis in tighter alignment with the dermis. Our right-handed **D-beta fructan** component makes the effects of this chiral arrangement more enduring. Meaning you will feel this product working even after you have had your hands in and out of water several times throughout the day!
- We've also used right-handed **Vitamin E** or **D-Alpha Tocopherol**, which is the only beneficial version of Vitamin E. Sourced from Purslane (portulaca oleracea) where it occurs at 2300 parts per million (PPM), it is hands down more effective than the left-handed version.
- We incorporated only the best optically correct components of the **Aloe D-complex**, making your results worthy of the legends that have become associated with Aloe Vera over the centuries! **D-mannose-phosphate** is the component with the amazing healing properties, while **D-hydroxy-chromone** and **D-methyl-phytl-chromanol** act as antioxidants, and **D-methy-tocol** lends an anti-inflammatory attribute.
- Our "yummy" CHIROMA-THERAPY ratio is created by blending **Jasmine Alcohol, Almond Oil**, and **chirally resolved fruit extracts and fruit oils**.
